

From the Desert to the Mountains: Birding in Southeast Arizona

The diverse habitats and southern location serves to attract many types of birds to southern Arizona, including the Elegant Trogon, the Greater Roadrunner, and a variety of Hummingbirds. Mark Suomala has guided numerous trips to Arizona and will present a captivating overview of the avifauna, with tips on where and when to visit.

Thursday, September 17, 7:00 p.m.
