

Using Trail Cameras to Study Wildlife Behavior

Janet Pesaturo

We welcome **Janet Pesaturo** for a unique presentation on camera trapping and wildlife behavior! Janet is a conservation biologist, certified tracker and writer who travels around the country tracking and camera trapping everything from mouse to moose. In 2018, her first book was published: *Camera Trapping Guide: Tracks, Sign and Behavior of Eastern Wildlife*. This talk will introduce trail cameras – how they work and how to set them up – and then discuss smart camera placement so that you too can capture photos and videos that reveal the secret habits of animals.

Thursday, November 21, 2019 @ 7:00 p.m.
